

Corporations and Trademarks

Thank you for your interest in forming a corporation or other business entity in the Virgin Islands.

The Office of the Lieutenant Governor through the Division of Corporations and Trademarks, serves as the registry for all corporate filings in the Virgin Islands. We develop the appropriate forms required to form a business entity, file all corporate documents as required by law and provide information to the public on a corporation's status, directors, officers and business purposes.

This guide will help you as you begin to examine the options available to you and your business. However, it cannot replace the specific knowledge and guidance that can be provided by a lawyer and a tax advisor as you make your own personal business decisions. Therefore, we encourage you to seek this assistance, when necessary, as you move through this process.

Our experienced staff is always willing to assist you with any filing procedures. We have also created a list of Frequently Asked Questions to help you. I wish you much success in your new business ventures.

Denise Johannes

Director of Corporations & Trademarks
